

# OEH SEMINAR SERIES

## “RADON in Ontario Workplaces”

Friday, 2 February 2024

12:00 – 1:30 PM EST

### Dr. Paul Demers

Director, Occupational Cancer Research Centre  
Professor, DLSPH, University of Toronto

### Lily Yang

Research Associate, Occupational Cancer Research Center

### Laura Boksman

Consulting Scientist, Radiation Safety Institute of Canada

### Christine Fink

Manager, Organizational Development, Safety, Wellness and Rehab, City of Greater Sudbury

### DISCUSSION AND INSIGHTS

The session will feature a panel of radon experts, researchers, and health and safety professionals, presenting on:

- findings and results from OCRC’s recently completed research project on radon levels in Ontario workplaces (featuring OCRC’s Dr. Paul Demers and Lily Yang);
- the importance of workplace radon monitoring and mitigation (featuring Radiation Safety Institute of Canada’s Laura Boksman); and
- dealing with high radon test results from the workplace perspective (featuring City of Greater Sudbury’s Christine Fink).
